**About Favuseal:**

Favuseal supplies an enhanced polymer based passive fire protection (PFP) solution with extreme properties. It has been subject to rigorous testing in extreme conditions and has passed OTI jet fire testing numerous time. Favuseal is non-toxic, non-hazardous and is mechanically stable up to temperatures of 1.300 degrees Celsius. Favuseal reduces health and litigation risk by being non-toxic/hazardous in "every state". Favuseal is used for fire protection of GRP piping and also in the cable industry. The company is pursuing new lines of businesses and all contacts are welcome. Favuseal technology is the Fire Protection for the Future....
